**FAA Specifications for Hypothyroidism**

Please provide a current status report (clinical summary) regarding the history of hypothyroidism of your patient. This report should include the following, along with any separate additional testing:

- etiology of condition
- name and dosage of thyroid replacement
- other associated problems, such as cardiac or visual
- TSH level (attach report) within the last 90 days

Please do not hesitate to contact our office if you have any questions regarding this request.

Thank you.
