FAA Specifications for Migraines

Please provide a current status report (clinical summary) regarding the history of migraines for your patient. This report should include the following, along with any separate additional testing:

- statement regarding the frequency of headaches and/or other associated symptoms
- characteristics of the headaches (severity, speed of onset, auras, triggering events, etc)
- name and dosage of medication(s) used for treatment and/or prevention with comments regarding side-effects

Please note if:

- frequency and/or other symptoms increase
- use of medications such as narcotics, tramadol, tricyclic medications, etc.

Please do not hesitate to contact our office if you have any questions regarding this request.

Thank you.
